VACANCY
SABA CONSERVATION FOUNDATION

The Saba Conservation Foundation (SCF), a non-profit conservation organization on Saba, is seeking a full-time professional for the position of:

Coral Reef Restoration & Resilience Programme Manager

1. Job Description

- Coordinate coral restoration, relocation and monitoring, and provide technical guidance and training to the project team.
- Develop a long-term coral reef restoration strategy and implementation plan.
- Develop funding proposals to secure support for the continuation of the reef restoration programme.
- Support project reporting, data analysis and handover.

2. QUALIFICATIONS

- Master's degree in marine biology, ecology or a related field, and at least three years of relevant coral restoration experience.
- Experience in project coordination, scientific monitoring, report writing and funding proposals; excellent English communication skills.
- Rescue Diver certification or equivalent, scientific diving experience, current First Aid, CPR and emergency oxygen certifications, small-boat experience and a valid driving licence.

3. TERMS AND CONDITIONS

- Full-time, 40 hours per week, based on Saba.
- Initial six-month contract, with the option of renewal if funding is secured and a further written agreement is concluded.
- Salary commensurate with qualifications and experience within the approved project budget. Start date by agreement.

4. METHOD OF APPLICATION

Send a CV, cover letter and contact details for two professional references to the Executive Director at **sabapark.manager@gmail.com**. Include the job title in the subject line and indicate your availability.

Application deadline: 9 December 2026
11:59 p.m. Saba time (AST)
